Major subjects: Computer Science, Software Engineering, Web Development, AI.

Chaudhary Charan Singh University

Meerut

Bachelor of Computer Application

2020–2023

Major subjects: Computer Science, Software Engineering, Web Development.

Skills

Python, MySQL, SQL, GCP, Data Pipeline, Bigquery, Pandas, Data Processing, Web Scraping, Data Ingestion, Data Cleansing

Projects

Travel with Banjara: Developed a robust and feature-rich travel agency website, enabling users to plan and book trips efficiently, and providing a seamless user experience. Integrated features for destination guides, itinerary planning, and online booking, resulting in increased customer satisfaction and revenue growth.

Elven:11 Cafe and Stay: Spearheaded the design and development of a website for a café and stay facility, significantly enhancing user experience, online presence, and booking efficiency. Utilized cutting-edge technologies to create a visually appealing and user-friendly interface.

Portfolio Website: Conceptualized and created a personal portfolio website to showcase skills, projects, and professional expertise, highlighting my capabilities as a proficient developer.

Hostel Management System : Developed a comprehensive and intuitive hostel management system, streamlining administrative tasks, improving efficiency, and reducing manual errors.

Car Service front-end website : Designed and developed a user-friendly and responsive front-end website for a car service company, facilitating online bookings, and enhancing customer engagement.
